## Powered Up, Not Weighed Down Ingersoll Rand 2850MAX 1" D-handle Impact Wrench

With 2,100 ft lbs of torque, the new Ingersoll Rand 2850MAX 1" D-handle Impact Wrench is our fiercest $1^{\prime \prime}$ wrench yet, loaded with extreme power that lasts as long as you need and continuously delivers over time. This sturdy yet lightweight impact wrench powers through bolts other tools can't. With a steel core, precision machined impact mechanism and powerful motor, the 2850MAX is solid enough to handle REAL WORK day in and day out without sacrificing power over time. But even with all that high-performance steel, the 2850MAX is still $25 \%$ lighter than the industry's leading $1^{\prime \prime}$ wrench, so it's easy to maneuver and causes less fatigue. No matter how tough the job, you can power through with the 2850MAX.

Heavy Truck \& Tire Changing

Industrial Maintenance

Heavy Equipment

Vehicle Repair

Tool Features

Chemical resistant housing \& steel core $\quad$ Highly engineered design delivers the design stand up to drops and harsh $\quad$ power you need over the life of the tool work environments
